

# LRX LIGHTING

Essanay Studio and Lighting Company is proud to be the midwest supplier for LRX Robotic Lighting Systems. The LRX Single lamp has the ability to be used as either a tungsten or a daylight fixture. The self contained weather resistant robotic lamp can be completely controlled from the ground saving production on labor costs while increasing crew safety. Essanay has four complete fixtures stored in house and ready to roll for your next big shoot. Please call

Each LRX Single fixture comes in its own crate with its own package of accessories.

Accessories included in each LRX Single fixture include:

- 1 hand Contoller
